Re: Tunney Act

Dear Court of Appeals:

I very much support the Tunney Act as currently written (1/02/02). As a Professor of Management at the University of Nebraska-Lincoln, I have long felt that Microsoft has been unfairly attacked in their business practices. Since they are willing to accept the current conditions under the Tunney Act let's bring this situation to a quick resolution.

For the record I do not own stock in Microsoft or have anything to do with the company.

Best wishes,

Marc Schniederjans
